4.0 Teacher Training

There will be no 21st
century-learning without
21st-century teaching.

“ Teaching is not just a profession; nor is it a delivery system. It is a leadership calling to **develop humanity** and lay the foundations for **a sustainable and equitable future.** ”

We believe in building a world where everyone is empowered to be a changemaker and **that journey starts in the classroom.**

The 21st-century educator's role is to facilitate **communication, collaboration and hands-on activities** that bring the best out of students.

Academy of Entrepreneurs™ has custom made Teacher Training Programs for High School and University 4.0

Our programs have been designed for all teachers, career advisors, academic managers and principals. Our programs offer a unique and practical training experience that enhance educators' impact in the teaching and learning environment.
